## who we are.

Located on the beautiful central west coast of Florida, Clean Recovery Centers provide Intensive Outpatient and Outpatient Treatment as well as Transitional Living for the treatment of addiction.

## what we do.

Every day the plagues of alcoholism, addiction and untreated mental health issues impact millions of lives. Clean Recovery Centers offers a Road to Recovery based on a unique Three-phase Approach: Get Clean. Live Clean. Stay Clean.

We are an intensive outpatient/outpatient treatment program that focuses on the client's strength; we build on what's right with each person, not what's wrong.

And it's paying off — we are seeing dramatic results within three to six months.

*“This center has a unique approach to recovery that truly works. They helped save my life.” - Robin*

## Our Program at a Glance

The Clean Recovery Centers Three-phase Approach consists of Group Sessions, Individual Sessions, Case Management, Recovery Coaching, and robust 12 step support. We recognize there are multiple pathways to recovery. We design a plan that works for you!

*“I've been through many treatment centers and the way the clinical material was presented here was very new to me. I was encouraged to see things in a different light and that everything I struggled with in the past truly no longer exists. I've learned a new way of life.” - Angela*

# The Three-Phase Approach

Welcome to the Clean Three-Phase Approach that integrates the latest clinical therapy into a powerful program aimed at permanent sobriety.

*“I feel blessed here. People care about me and want me to succeed. I don't feel like I'm struggling on my own.”* - Jason

Everything we do is designed to build you up and prepare you to succeed. At Clean Recovery Centers, we focus on the good within all of us, giving you the necessary tools to get, live, and stay clean.

## Phase I Preparation

Your road to recovery begins! Phase I consists of group sessions four times per week as well as weekly individual and case management sessions. You will learn the Four Agreements\* and numerous leading edge techniques critical to permanent sobriety. Mid-way through Phase I you will begin your successful integration back into society as you find work and start to enjoy life again. Ideally, you have completed your 12 Step Work by the end of Phase I as well. Phase I is typically 8 weeks or less.

*“I'm here learning a different way to live.”* - Chris

## Phase II Action

Phase II is where you will begin to put all of these skills into action on a daily basis. You will step down to an outpatient level of care and the number of clinical sessions begins to decrease. Trial, Practice, and Stabilization program elements are covered extensively. Phase II is typically 4 weeks or less.

clean.

*“I've only been here for 3 months but it has honestly saved my life. God has brought me here for a very specific reason... The staff and entire program has been an incredible blessing.”* - Tiffany

## Phase III Maintenance & Growth

Phase III is where clients begin to transition into society full-time. This is where we learn about Maintenance and Growth mastering all that we have learned. Clients typically will come for group session two times per week for an hour and will often have weekly individual and case management sessions. Clients are encouraged to spend no longer than 3 months in Phase III.

*\* As outlined in "The Four Agreements: A Practical Guide to Personal Freedom" by Don Miguel Ruiz*

*“I didn’t come in here as the most willing person but being here, getting to know everybody has been helpful. This program works.”*  
 - Ben

## Clean Recovery Transitional Living

Clean Recovery Transitional Living provides a safe and clean environment as you work through the Clean Three-Phase Approach to treatment. You become part of a “Clean Community” where peers and staff support one another on this journey. All Clean

Recovery Transitional Living

homes are certified by FARR  
 - the Florida Association  
 of Recovery Residences.
